Candy Monster Plushy

This stuffed monster makes a great gift for kids. It's cute and the perfect snuggly companion, plus it has a secret pocket for hiding extra candy.

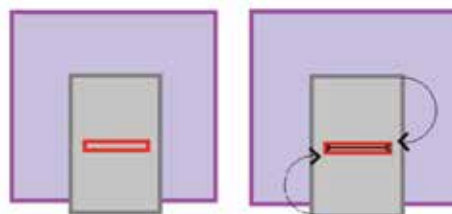

MATERIALS

- Baby Lock® Sewing Machine
- ½ yard craft fur
- 1 fat quarter (green dots fabric for legs)
- 7" metal teeth zipper
- 1 fat quarter (candy print for mouth)
- White felt remnants for eyes
- Orange fabric remnants for horns
- 3 large buttons (two eyes, one nose)
- Polyfill Stuffing
- Madeira Aerofil all-purpose thread to match fabrics
- Marking pen or chalk
- Hand sewing needle
- Template on pg. 17

INSTRUCTIONS

1. Fold the fat quarter fabric green dots for the legs right sides together lengthwise.
2. Trace the leg template onto the fabric.

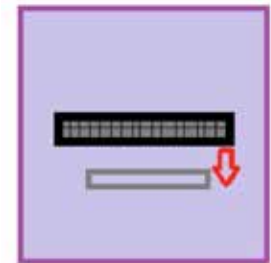

3. With the machine threaded and a straight stitch selected, sew along the drawn lines leaving the top of the leg open.
4. Repeat for the second leg.
5. Cut ¼" around the outside of the stitching lines to cut the legs from the fabric.
6. Clip the curve around the foot to, but not through, the stitching.
7. Turn the legs right side out and stuff.
8. Repeat this same process to create the two horns from the orange fabric. Make sure to leave the lower edge of the horns open for turning.
9. From the craft fur, cut two 12" squares.
10. Cut a rectangle 8" x 10" from the candy print fabric.
11. Place the candy print fabric right side down on top of one side of the craft fur, centered over the desired mouth location. Make sure the direction of the fur (fabric nap) is going downwards as if you combed the hair down.
12. Stitch a rectangle 6 ½" x ¼" (long buttonhole) for the mouth placement.
13. Clip the inside of the buttonhole mouth and turn the fabric through the opening.

14. Align the edges of the rectangle pocket fabric right sides facing together on the wrong side of the craft fur and stitch the edges closed to form a pocket. If the

rectangle edges do not exactly align, simply take a larger seam allowance (shortening the pocket) so you catch all the edges. Zigzag the seam allowance.

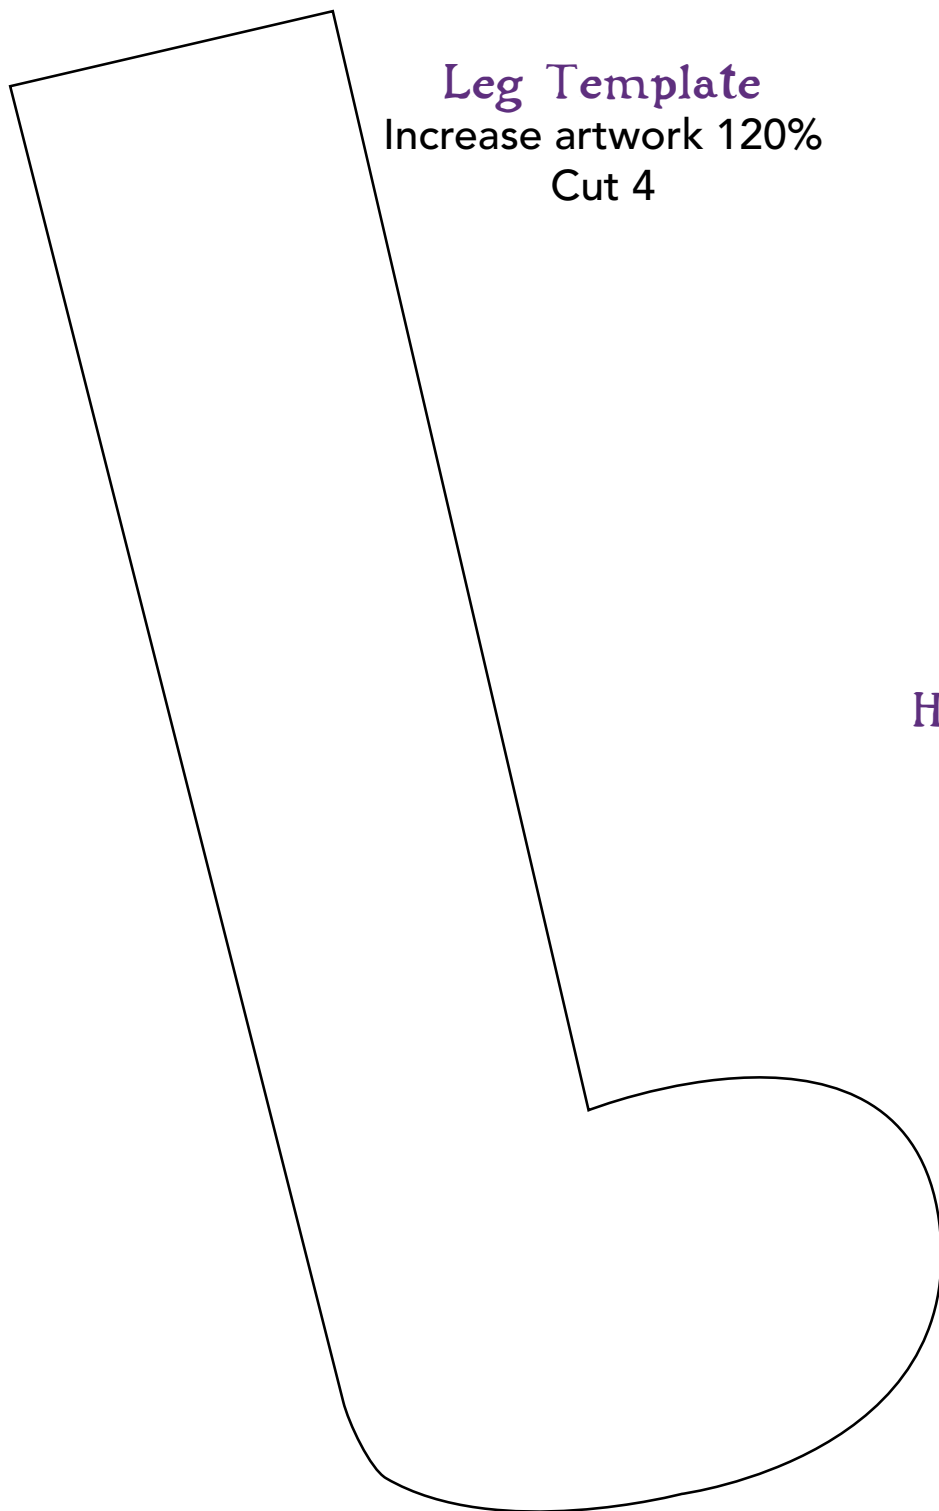

15. Once the mouth pocket is created, topstitch the zipper over the opening from the right side, making sure not to catch the pocket in the stitching.

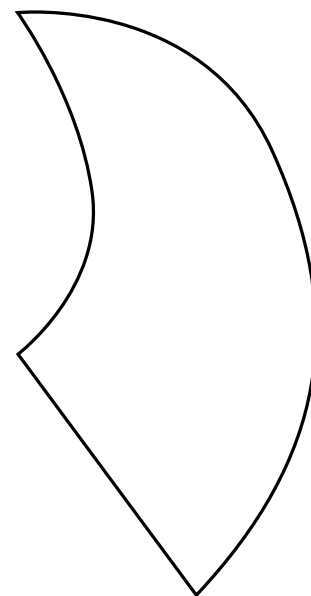

17. To attach the horns, baste them to the center top of the fur square that has the zipper.
18. Baste the feet to the lower side of the same square, centered.
19. Place the remaining fur square right sides together with the front square. Make sure the direction of the fur (fabric nap) on both sides matches and is going downwards as if you combed the hair down towards the feet.
20. Sew around the edges catching the raw edges of the horns and legs in the seam allowance, but remembering to leave a small 4" opening for turning and stuffing.

21. Turn through the opening.
22. Use a straight pin to comb the loose ends of the fake fur out of the seam, fluffing the seam allowance.
23. Stuff the monster and machine topstitch or hand-stitch the opening closed.
24. Hand stitch the felt and button eyes, then sew on the nose.
